THE EXPERIENCE

ABOUT THE EXPERIENCE

*The rush of water. The surge of adrenaline. The flow of energy. The screams of joy.
You can't describe it. You have to feel, experience it.*

TNTY has been doing what she is doing with that same feeling of anticipation and energy for 42 years. Committed to innovation, quality, technology and passionate about design, we've grown from a family company into a global leader, with 3000 waterpark projects in 105 countries worldwide. We're proud to offer the industry's widest range of waterpark attractions.

Our pioneering technologies and ground-breaking designs mean that we are the trusted suppliers to many of the world's biggest, award-winning waterparks. We understand that each and every element within the waterpark matters and our thrilling waterslides help break attendance records for our clients all over the world.

Game changing innovations such as our landmark King Cobra waterslide or L-RTM technology in waterslide manufacturing have set new industry benchmarks for creativity and excitement. Polin is committed to providing the best-quality products and services by investing in continuous research and development.

You are invited to experience,
The TNTY Experience.

Waterpark, Kyllini, Greece

WHY POLIN?

Our Company has many characteristics that make it an attractive asset:

Experience & Expertise

With 42 years of experience across the globe in the composites sector, we've developed an unmatched business and technological expertise. With 3000 projects in the last 42 years, our wealth of experience continues to grow.

Know - How

Our extensive business experience in the aquatics industry distinguishes us from our competitors.

Worldwide References

We have successfully completed 3000 projects of different sizes and complexity in 105 countries around the world.

Strong R&D Focus

We are committed to research and development. We never stop improving our products and services or introducing new products to the industry.

Excellent Staff

We have experienced, talented, innovative staff of professionals dedicated to aquatic industry. The quality of our people makes us stand out.

Strong Partner Network

We have built strong and long-term relationships with our outstanding partners in 65 countries around the globe.

High Capacity Plants

With state-of-the-art production facilities, we are proud to say that we have a high plant capacity.

Commitment to Quality

We established Polin with the best quality and service in mind. It has always been our goal to produce the finest quality products in the industry.

Competitive Price

We are proud to serve superior quality products and service at a competitive pricing.

Dedicated Customer Service

Polin is a client-centric organisation.

Strong Supplier Network

We only work with the leading suppliers around the globe and we have a strong reputation among our suppliers. We have succeeded in building strong working relationships with them.

Easy Communication

We understand that effective communication is crucial for success of any project. With 42 years of experience in 105 countries around the world, we've gained an important advantage of working in any culture. All our employees engaged in communication with customers speak fluent English.

Geographical Location & Culture

Turkey has an important logistics advantage due to its geographic location where continents Europe, Asia and Africa meet. Our production centers are located between these three large markets. Looking at the world map, Turkey is at a place where west and east meets, where you can still feel the trace of hundreds of cultures who had lived in this region, where you can fully experience the taste of four seasons.

Living in such a beautiful, multi-cultural environment creates a synergy that takes our team one step ahead in developing the most successful projects. Due to huge cultural and historical heritage, we have an important flexibility while working with different cultures.

VISION

Our vision is to be the leading company in the worldwide waterparks sector. This means being deemed number one by its partners, customers, colleagues, and employees due to our proved distinction, expertise, credibility, innovation and quality.

MISSION

Our mission is to contribute to the national and sector development by leading improvements in the global sector, supplying the highest quality and most innovative products and services at convenient prices, progressing beyond the expectations of our partners and customers, and continuously increasing our production and export volumes.

VALUES

Innovation // Corporate Commitment // Honesty // Quality // Reliability // Leadership // Success Focus // Dynamism // Integrity // Value for Partners, Customers and Employees // Customer Focus // Teamwork

MILESTONES

1976 FOUNDATION

TNTY is established by architect Enver Pakiç as a composites design and manufacturing company.

1980 TOURISM AND LEISURE INDUSTRY

TNTY designed and manufactured unique and innovative products, composites structures and supports for Tourism and Leisure Industry.

1989 WATERSLIDE MANUFACTURING

TNTY started waterslide manufacturing.

1999-2000 BIGGEST REGIONAL WATERSLIDE SUPPLIER

TNTY excelled in waterpark design and supply. TUV quality certification for the slides. WWA & EWA memberships. Grown into the biggest regional waterpark company. Designed larger scale waterparks.

2000-2005 LARGER PROJECTS, SUPERIOR QUALITY WORLDWIDE

Opened 2nd facility and moved HQ. IAAPA membership. ISO 9001 certification. Built the largest waterparks Internationally: Europe's largest outdoor and indoor waterparks. Largest waterparks of Greece, Turkey, Syria, Egypt, Russia, Vietnam, Iran, Ukraine (Indoor/ Outdoor).

2005-2014 PIONEER IN RTM WATERSLIDES TECHNOLOGY LEADER

Pioneer in the advancement and the application of L-RTM process in waterslide manufacturing. Offers its patented NLE, SPE in RTM and translucent RTM waterslides offers the whole line of production in L-RTM. Award Winning Waterparks/Waterslides. Moved to the new facility.

2015-2018 AWARD WINNING SIGNATURE WATERPARKS/WATERSLIDES AND INNOVATIONS

TNTY Excelled in Waterpark Design and Supply. TUV, ISO 9001:2015; ISO 14001; OHSAS 18001 Certifications. Grown into the Top Three Largest Global Waterpark Company.

Designed Larger Scale Waterparks. Technology Integration (VR Waterslide Simulators, Splash VR, Splash Cabin, Splashware, Slide'n Roll, Slide'n Score, Splash Bucket etc.). Strategic Partnerships (AWM, Wow Company, Lagotronics). One Stop Amusement Park Supplier (Polin Group – PolinGameTechnologies, **TNTY** Aquariums, PolinParkServices, PolinDesignStudio, PolinWaveParks, PolinSprayParks, PolinSafariParks, PolinParkStore). Achieved R&D Center Certification. One of the Turquality Companies. 3000 Waterpark Projects in 105 Countries.

SIGNATURE WATERSLIDE DESIGNER

King Cobra® ("Best Waterslide of Europe" Award 2012-2013-2014-2015-2016, "The Most Creative and Excellent Invention" Award 2016 and "Most Innovative Product" Award 2013) // Dragero® // Magic Sphere® ("Most Innovative Product" Award 2015) // Space Shuttle® // Spheres® // Sphere Combo ("Best Waterslide of Europe" Award 2014-2015-2016) // Windigo ("Best Italian Waterpark Attraction" Award 2008) // Surf Safari ("Best Waterslide of Europe" Award 2015, "Europe's Best New Attractions" Award 2015) and "Best of Las Vegas" Award 2015 // Space Race® ("IAAPA Brass Ring Award" 2016 and "Most Valuable Products" Award 2017 // Storm Racer® ("A Design Award" 2017) Racer Series and more...

AND FUTURE Excellence in Technology, Innovation and Service

PLANTS & OUR TEAM

We are acutely aware of the responsibility we bear towards our customers, which is why we continue to invest in the highest quality of equipment and state-of-the-art facilities.

We believe our facilities demonstrate our ability to efficiently expand our production lines and execute our growth strategy. We have an experienced, talented and innovative staff of professionals dedicated to the aquatic industry. The quality of our people is the key to our constant success. The superiority of our staff makes us stand out. Each team member possesses specialized industry knowledge. The unique combination of our team adds value by introducing diverse approaches and perspectives to ensure maximum customer satisfaction.

SOCIAL RESPONSIBILITY

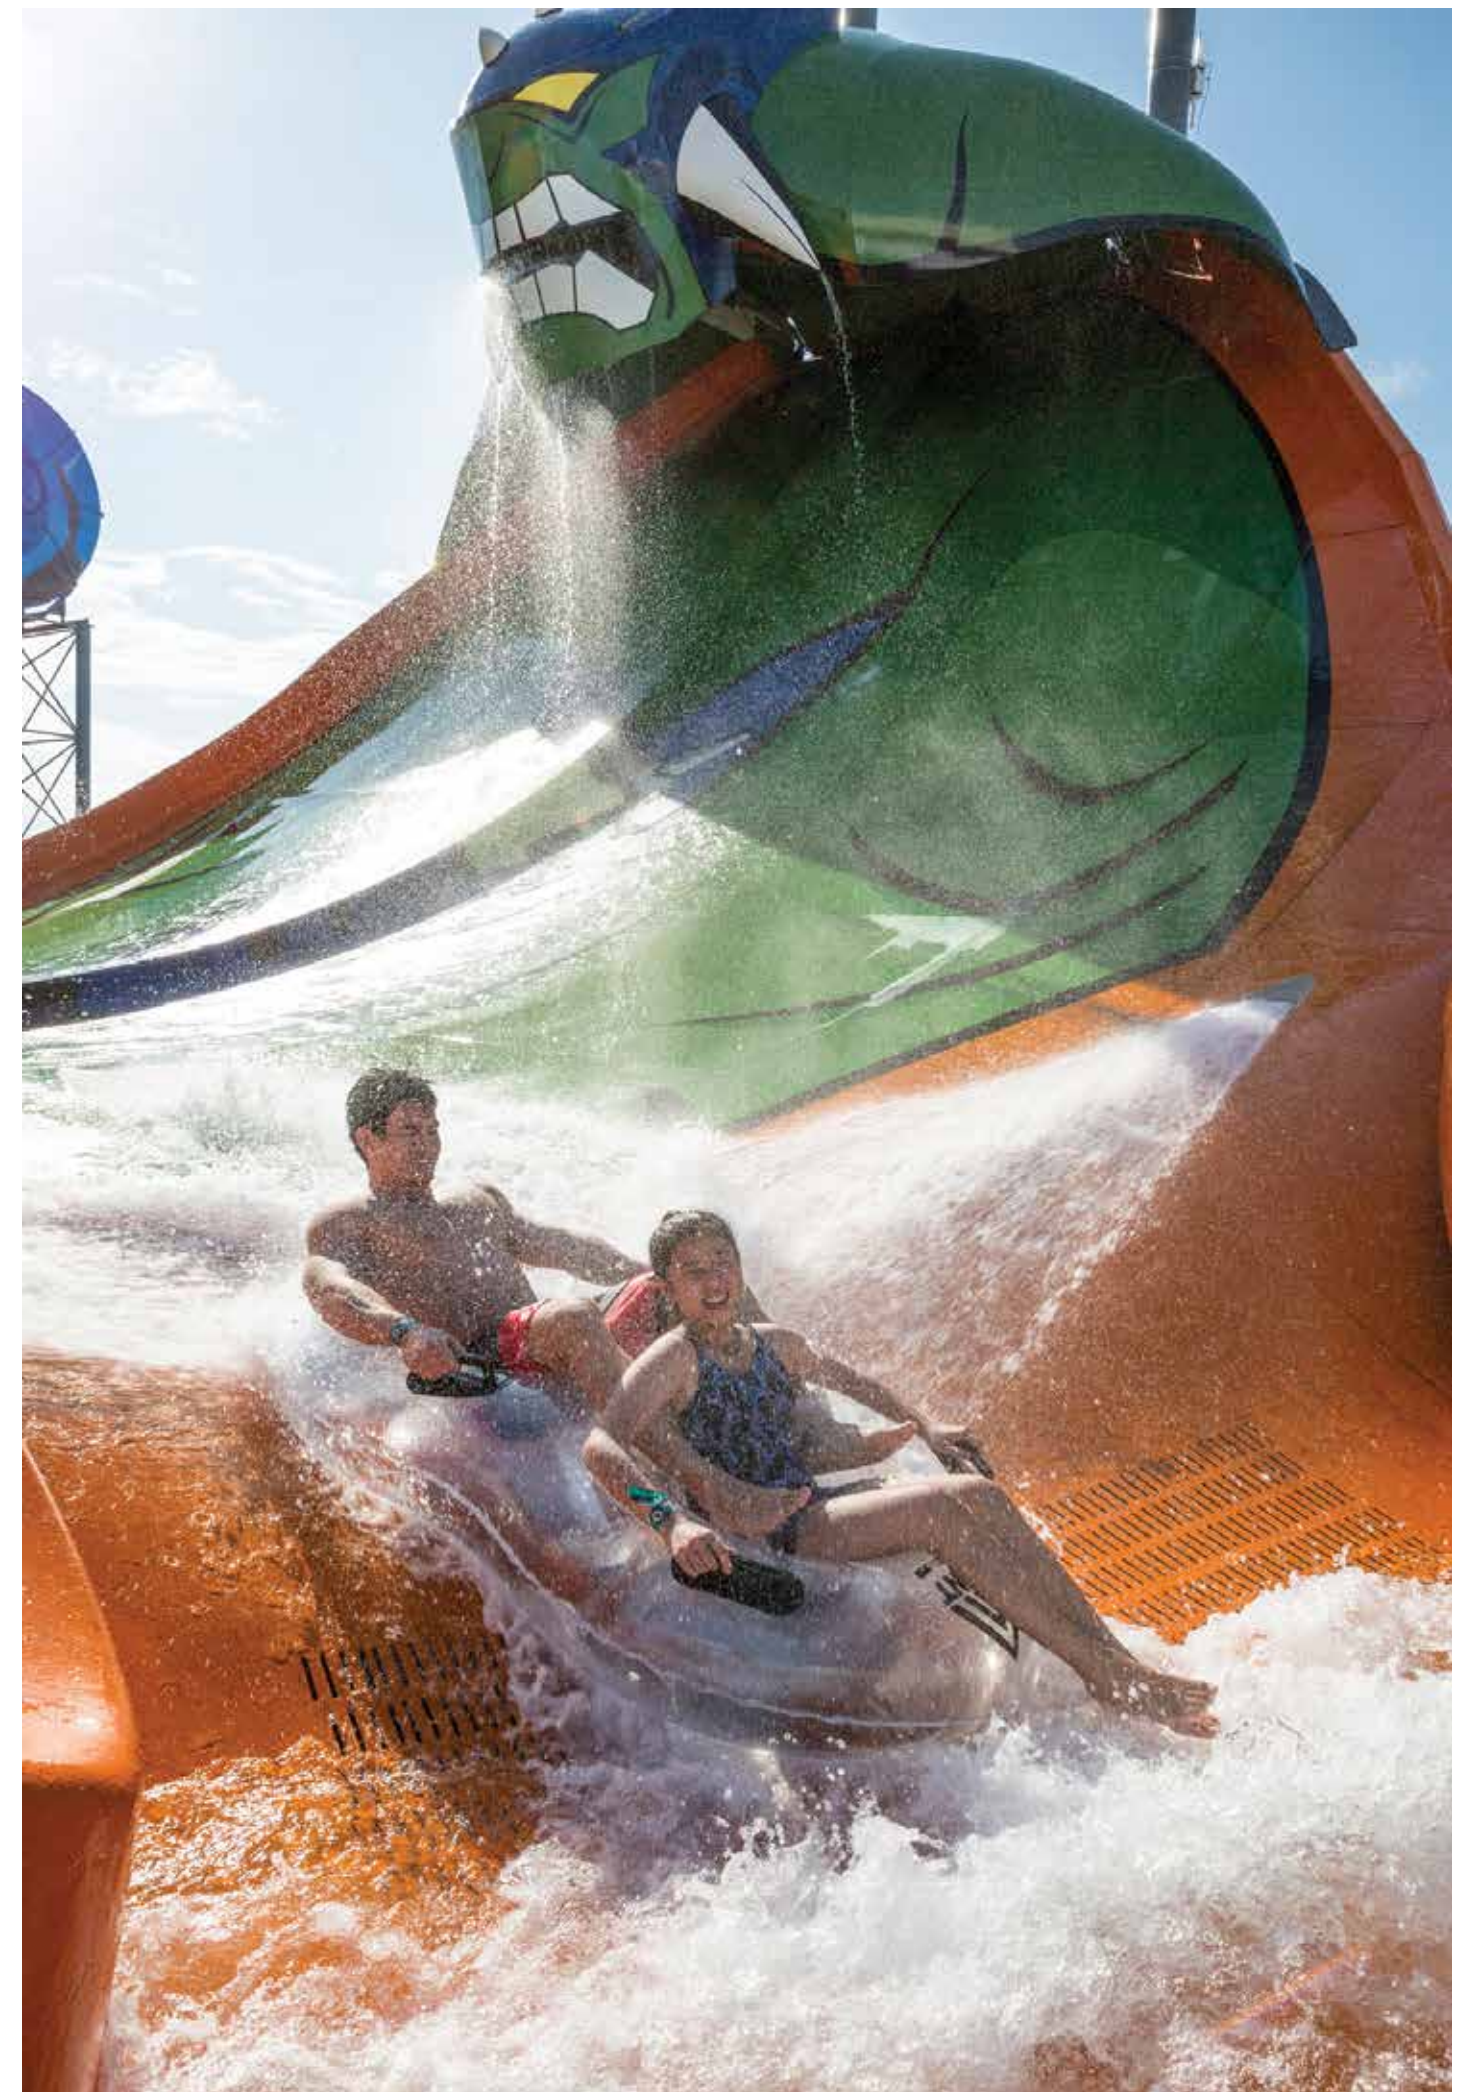

As TNTY, we are aware of our responsibility to contribute to the wellness of the world and society's welfare. That is why we are trying to adapt our to the evolving needs of society. We conduct responsible business practices and uphold the highest ethical standards in everything we do. In this context, we are always compatible with laws, ethical standards and human rights. With this social awareness, we set goals about education, environment, health and other issues of social responsibility and carry out campaigns to achieve them. Grants and payments, protecting the environment, workplace responsibility, and local community programs are just some of these campaigns.

RTM WATERSLIDE TECHNOLOGY

Pioneer in the advancement and the application of L-RTM Process in Waterslide Manufacturing

- Introduced L-RTM technology in waterslide manufacturing in 2006
- First European waterslide manufacturer that uses L-RTM in manufacturing.
- Single waterslide manufacturer in the world to produce largest waterslide components by L-RTM.
- Single waterslide manufacturer in the world that offers all of its line as Magic Shine.
- Only waterslide manufacturer in the world that can offer bowl rides and family rides as RTM manufactured
- Offers its patented NLE, SPE in RTM and translucent RTM waterslides.

Finest Quality waterslides both aesthetically and physically in less time and with less waste.

Pirates of the Cactus
Bodrum, Turkey

ADVANTAGES

- Perfectly shiny & smooth finish on both sides
- Aesthetically superior products
- Stronger but lighter waterslides
- Homogeneous thickness distribution
- Perfectly smooth joints
- Environmentally friendly
- Low emissions
- Easy maintenance
- Available in translucent colors
- Available in Natural Light Effects
- Available in Special Pattern Effects
- Available in Natural Sound Effects

Orbita Aquapark
Koblevo, Ukraine

LEADING THE WAY IN RTM WATERSLIDE TECHNOLOGY

Santorini Water Fantasy
Cha-am, Thailand

NATURAL LIGHT EFFECTS

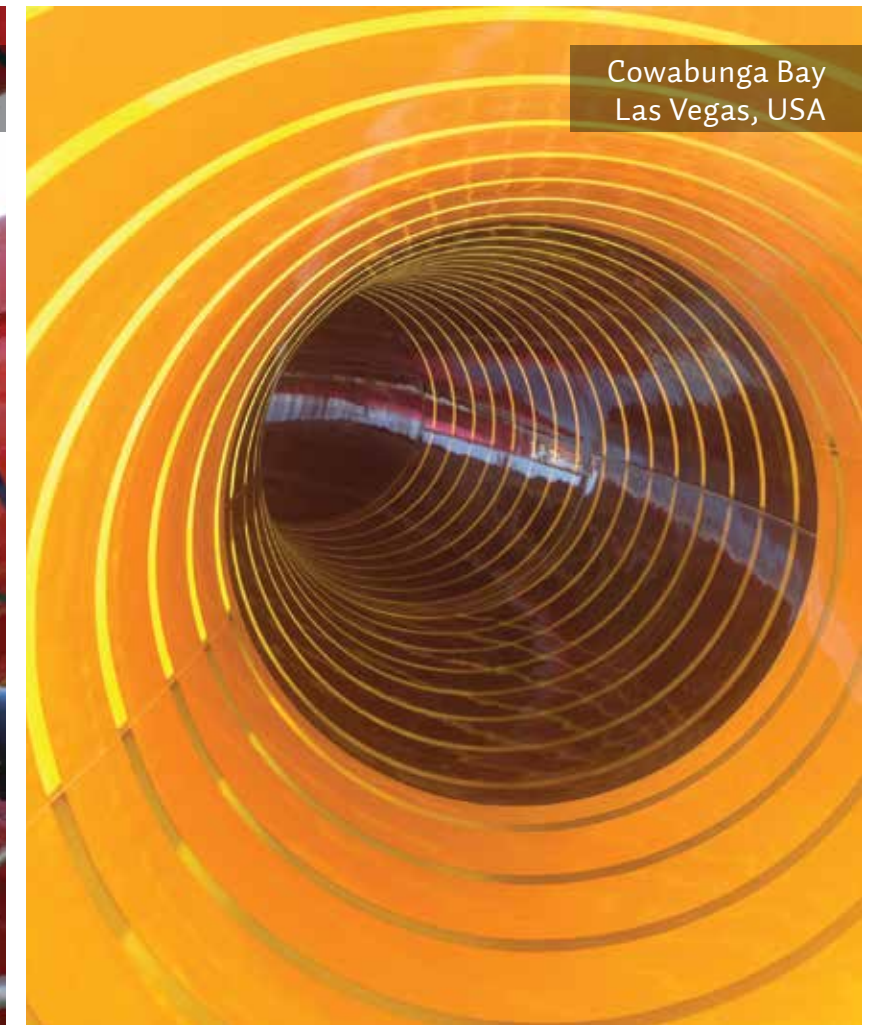

- The natural light effects - coming from the sun - that are created inside the tunnel type water-slides
- by a special technique
- Integrated into Magic Shine®
- Safest, costless, most fun and most colorful light effect solution in tunnel slides
- Patented Technology

TOUCH THE SUNSHINE

Travco
Macadi, Egypt

Cowabunga Bay
Las Vegas, USA

Pirates of the Cactus
Bodrum, Turkey

SPECIAL PATTERN EFFECTS

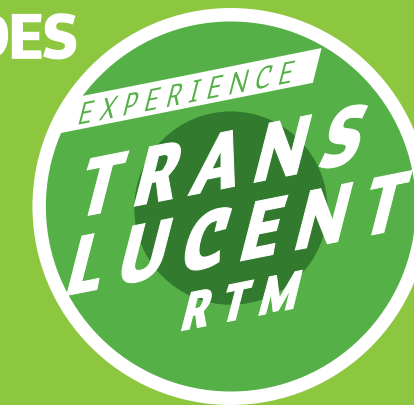

- A more attractive look compared to a standard one color options.
- Several color options compatible with the park's theme and landscape.
- Offering a theme in itself, reduces the theming costs in general.
- Promises the same delivery period with the standard colors.
- Continuous application throughout the slide.
- Available in Magic Shine which doubles the visual feast both offering special patterns and a superior shiny look on the outer surface of the slide.

Now we are also offering patterned translucency.
Contact us for SPE application in translucent slides!

EXPERIENCE THE REVOLUTION

EXPERIENCE THE TECHNOLOGY

TNTY has set a new standard for waterslide manufacturing excellence. It's newest technology innovation turns waterslides into genuine works of art with both interior and exterior designs - fully embedded into the production of the waterslides - that will change the way waterslides are themed forever more.

Seven new options in component visual design from TNTY offers nearly unlimited opportunities for waterparks looking to set themselves apart. Now, they not only can offer guests a thrilling ride experience but also fully themed slides that seamlessly reflect a park's motif in ways never before available.

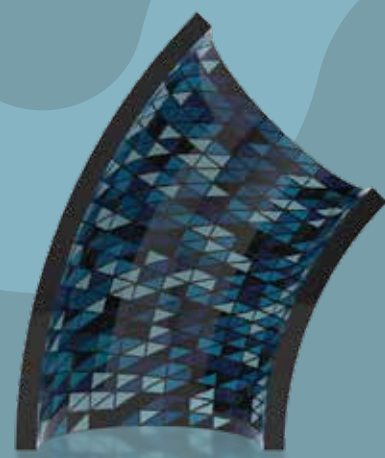

The three-dimensional, embossed surface of this option reflects light much like a solid prism. The unique geometrical shapes of this design create truly artistic theming options.

- Three-dimensional, embossed surface
- Theming possibilities
- Unique geometrical shape

Similar to the Triangulated option, this specialty pattern is cut and applied to Polin's slide components to create a honey-comb appearance. A surprising number of metal patterns can be created from this option.

- Specially designed, cut and applied patterns
- Themed possibilities
- Unique geometrical shape
- Surprising metal patterns

Parks looking for a sophisticated alternative for their slides can choose the Mosaic exterior. This option reflects the Italian art of tesserae – a design technique in which individual tiles form the shape of a cube. But unlike actual tesserae, Polin's version is one solid piece of design and is available in a wide range of colors.

- Unlimited design options by mixing different pieces and colors
- Remarkable theming selection
- Show-stopping visual impact

For parks eager to add a natural look to their slides, this option provides an astonishingly realistic wooden finish in a variety of wood veneer options.

- Astonishingly real wood finish
- Provides natural feel to park's environment
- Wide variety of wood veneer options

This new offering combines all of Polin's exclusive technologies (unique sound, lighting and design special effects) into one slide to create an experience that fulfills the full range of sensory stimuli for guests. The light effects can be of any theme, stripes, dots or any design.

- Combines exclusive sound, design and light effects
- Full sensory stimuli
- Experience throughout entire slide experience
- Latest innovation
- Ease of operation and maintenance
- Sound effects available
- Endless theming possibilities

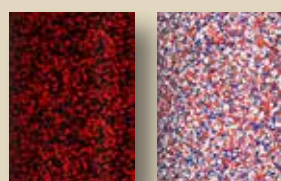

The visual appeal of high-tech facades are created from the metallic colors applied to this offering. Shiny, reflective and glossy surface finishes are available in gold, silver, copper and platinum.

- Metallic textures
- Shiny, reflective, glossy finish
- Gold, silver, copper and platinum choices

TNTY is now offering granite look waterslides (out of composites). These offerings can be of different color options with the stone granite look. For a monument look park with artistic applications, you now have one more option.

- Granite look waterslides are attractive making it not only versatile but favorable for your waterslides.
- Available in a multitude of colors.
- Made out of composites
- Visually appealing
- Eases theming
- Works in perfect accordance with decoration and theming of the park

The design application includes customizable, hand-drawn, exclusive illustrations that will create a strong and unique visual impact. All Graffiti designs are tailor-made to a park's theme.

- Exclusive, handmade illustrations
- Unique designs
- Strong visual impact
- Customizable theming options

DESIGN & ENGINEERING

TNTY aims to provide the highest quality, customer oriented, cost efficient, high capacity and safe solutions. At TNTY we consider every project carefully. This includes taking into account the objectives of park managers, developers, investors and guests. We know how important it is to increase the length of stay and to ensure repeat visits in your park. Project budget and development goals are crucial in our design analysis and planning. The location, topography, climate, culture, capacity, environment, location visibility of each site is unique. We do not assume what works in one specific country will work elsewhere.

TNTY has an experienced, talented and innovative staff of professional architects and engineers dedicated to the aquatic industry. Our multi-disciplinary approach makes it possible to offer flexible solutions. Our design team designs the most sophisticated types of rides, works carefully with the unique characteristics of each project, maximizes the site potential and finds the best optimum solution - all while ensuring the success of every project.

The design and engineering services of Polin include site plan project development, ride design, structural support systems, tower and foundation plan development and mechanical and hydraulic design.

It does not matter if it is only one slide or a major waterpark project, our project management approach ensures the project is completed on time. We continue to work with our client during all project phases to make each and every factor that contributes to the success of the park like product, cost, timing, etc. work to our client's advantage.

We have a wealth of experience that we've built through our 3000 projects all over the world during the last 42 years. This rich and diversified experience contributes to our clients' success regardless of their location.

Considering all of these factors, we are confident to say that we guarantee your success.

Serving your A to Z needs from a single Professional Integrated Source

MANUFACTURING & QUALITY MANAGEMENT

We have established Polin with the best quality and the best service in mind. It has always been our target to produce the finest quality waterslides in the industry. In our high capacity plant, TNTY manufactures all of its fiberglass products according to the highest industry standards.

From concept to completion, we enforce strict quality control standards. At Polin, we use only the highest quality raw materials for all of our products and our manufacturing plants utilize the most advanced manufacturing equipment and procedures.

This allows us to ensure you are receiving the finest quality product every time.

Everything is controlled at each phase with the Quality Management System, ISO 9001 (TUV). The tests conducted by our Quality Department start with raw material acceptance and continue strictly at every step of the production process.

Just before the product is ready for shipment, we conduct another detailed examination to ensure that the product is technically, physically, and aesthetically perfect.

Before our products leave the factory, we make sure that each component is carefully prepared and protected for shipping.

Dedicated to perfection

INSTALLATION & AFTER SALES SERVICES

Upon arrival at the final destination, complete installation is performed under supervision of TNTY's experienced installers, who have previously installed similar parks in 105 countries.

For over 42 years, we've done installations all over the world. Our engineering, on-time delivery, and detailed working drawings make everything easy on your side.

We give you a full action plan ensuring an efficient installation. Our skilled installers, with our project management approach, ensure an

efficient installation process by bringing years of worldwide industry experience to each project - regardless of the location. Polin has experts ready to serve your needs all around the world. Our after sales service helps ensure the maximization of the lifetime of your waterpark.

Our after sales services include service and maintenance packets for preventative actions, waterslide repair, material supply, replacement of parts and slide resurfacing.

Building pleasure since 1976

WATERPARKS

PolinWaterparks

THE WATERPARKS

Looking at the world map, Turkey is at a place where East meets West, where one can still feel the trace of hundreds of cultures who had lived in this region, where one can fully experience the taste of four seasons.

Living in such a beautiful, multi-cultural environment creates a synergy that takes our team one step ahead in developing the most successful projects. A successful waterpark development requires the success of every single unit in the park.

TNTY inspired waterparks break attendance records all over the world because we understand your challenges. Polin relies on the quality and the diversity of its water rides to offer the best possible service for each waterpark, wherever in the world.

We provide attractions and features that will make your park or facility unique.

We know how important it is to have the best water rides in your park and to keep your attractions new, exciting, and the best – so that customers keep coming back.

HOTEL & RESORT PACKAGES

Increasing occupancy and average room rates is one of the main goals of the hotel and resort managers. We can provide any hotel and/or resort, new or existing, with customized packages using our variety of configurations to meet space and budget requirements. Hotels and resorts are able to increase their occupancy and average daily rates with the addition of waterslides and kids' animation projects.

We offer affordable additions to enhance revenues not only for hotels and resorts, but also for existing municipal and recreational swimming pools.

You can turn to TNTY to get quick, efficient, cost effective design ideas to enhance your pool facility with a wide variety of waterslides and/or water play features.

CRUISE WATERPARKS

Looking at the projects that Polin has been doing, we can conclude that the cruise waterpark trend is still rising. On one hand, the old cruises while renovating are considering waterparks as a part of their renewal strategy and second, second major trend, which we already are seeing, is the addition of signature rides and themed waterparks to both existing cruises and new ones being built. The projects that TNTY has done in cruise ships so far include streamlined design, expertise in engineering, theming, technology.

WATERPARKS IN AMUSEMENT PARKS

If you give guests slides and other water rides that offer real thrills and excitement - adrenaline - pumping experiences that they can't get anywhere else - then it's definitely possible to keep them coming back again and again. And that allows even a short season to be extremely profitable. Plus, waterslides and water play structure are appealing to families who might not otherwise be interested in the 'typical' theme park experience. After all, a waterpark allows guests to spend much more time together than most theme parks. They can ride many of the slides as a group. They can splash together in the wave pool or float along in the leisure river. And they can let little ones entertain themselves with the interactive gadgets and gizmos of the kids' water playground.

AQUATIC CENTERS

With more than 3000 waterpark projects located around the globe, with most of that growth has been at larger destination waterparks, Polin also has had success in smaller, regional facilities and aquatic centers. Polin's additions help make the aquatic centers more enticing to families and encourage guests to spend more relaxing time at the facility, taking advantage of other services on property such as retail and dining. The investment in a waterslide and water play feature is a small price considering the overall costs of building the hotel, to potentially add upwards of 10 - 20% in increased revenues.

SIGNATURE WATERSLIDE DESIGN

SIGNATURE WATERSLIDE DESIGN

Rides that are designed and engineered for maximum safety with highest level of ride experience. State-of-the-art soft ware and innovative staff dedicated to the waterslide industry. High-speed, energetic, high-capacity, sophisticated slides that offer screams, adrenaline and fun.

TNTY offers the industry's widest range of products, including signature rides such as the patented King Cobra, Magic Sphere, Spheres, Magicone, Space Race and Space Shuttle & hybrid combination waterslides such as Hybrid Dragero, Sphere Combo, Space Shuttle Combo. We design and engineer rides that deliver fun, safety, function, comfort, innovation, capacity, entertainment, ease of operation and maintenance.

Our products are custom designed and custom engineered.

Our water slides are unique. They differ both in terms of their distinctive design and ride path.

Also, our slides contain multiple slide routes in one including vertical drops, classical ride paths, uphill ride routes and centrifugal ride routes.

In order to provide a frictionless surface on these giant slides, water spray jets are commonly used.

Most of the slides in our portfolio begin with a steep entry that provides rides with the thrill of "free falling". Polin has always been innovative and is continuing that tradition with these very sophisticated rides.

LEADING THE WAY IN THEMING
GAME CHANGING IN
WATERPARKS WORLD

THEMING

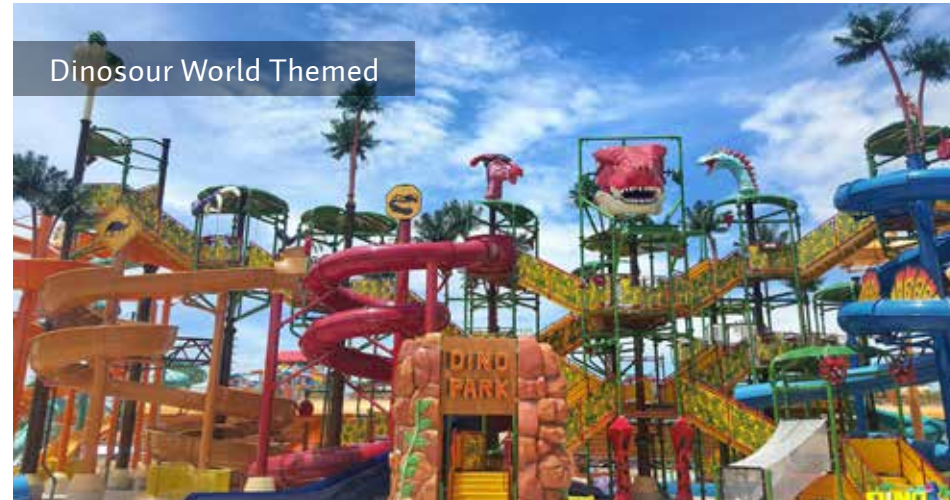

THEMING

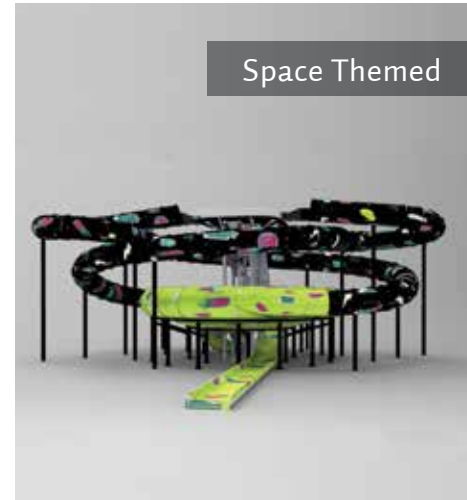

As TNTY, we are pleased to lead the way in theming the waterslides. We believe we will start witnessing theming as storytelling. The rides that tell better stories will be the best. Our newest signature rides present unparalleled design, intense rider experiences, and creative theming. A great example of a themed waterslide is our King Cobra. This is a game changing waterslide. It is the first to offer a theme built into its fiberglass design, which - by the way - doesn't have to be based on a cobra. Right now, for example, we are creating a dragon - themed version for a project in China, we completed a ship theme in Indonesia for Bugis Waterpark and a Humungousaur theme for the Cartoon Network Amazone Waterpark project.
