EXPERIENCE THE EXPERTISE

Making sure your **TNTY** Waterparks products deliver years of safe, efficient experience to your guests is the No. 1 goal of **TNTY** Park Services. How? By combining our team's extensive experience with our expert knowledge and mixing in critical maintenance strategies, waterslide repair, materials supply, parts replacement and slide-resurfacing services.

We passionately pursue excellence in these efforts and strive to deliver on our promises through great communications, continuous improvement and an intense focus on customer service.

Our goal is simple: For every client to create fun, safe, thrilling, unforgettable experiences for their guests - experiences that rest on a bedrock of top-quality, reliable and safe attractions. You can rest assured your attractions meet those levels when you rely on Polin Waterparks' authorized, in-house team of professional technicians delivering critical periodic maintenance and repairs.

CALL US NOW!

SCOPE OF POLIN PARK SERVICES

TNTY Park Services offers complete maintenance and service packages, allowing our knowledgeable project-management team to oversee your project from beginning to end, ensuring well-organized, timely and cost-effective results under Polin's guarantee.

INSTALLATION

With 42 years global experience and 3,000 waterpark installations all over the world, **TNTY Waterparks** team has a robust team of experts ready to serve your needs. You'll know you're in good hands from the moment our products arrive at your facility.

Our specialists - with experience gained from operations in 105 countries around the Globe— oversee every aspect of installation. In fact, we make the process easy with detailed preplanning, expert engineering, on-time delivery and comprehensive schematics. After all, our skilled installers and proven project-management approach ensure an efficient installation process every time - regardless of location.

TESTING & COMMISSIONING

TNTY Park Services' experienced team of professionals provides comprehensive on-site testing and commissioning services in accordance with all local governmental requirements. Plus, our experts' vast technical knowledge covers not only our equipment but also that of other manufacturers. The result is a range of broad testing and commissioning services that get your site up and running quickly and reduce your overall operational costs.

You won't waste a minute when you can rely on our full, turn-key solutions - coordinated according to strict timetables. We've developed our reliable project-management skills from years of close collaboration with thousands of clients. We provide everything from start to finish: **Design, engineering, manufacturing, installation, commissioning, maintenance and repair.**

PARK REJUVENATION & CONSULTATION

TNTY is continuously enhancing all aspects of the aquatics amusement and waterparks industry through focused **Research and Development (R&D)** efforts supported by skilled engineering teams with cutting-edge concepts. Our highly skilled and experienced team of professionals can fulfill installation, inspection, testing and commissioning and a wide range of on-site services.

The result?

Perfect performance that maximizes your productivity, profitability and reliability.

ABOUT US

TNTY Waterparks was founded in Istanbul, Turkey, in **1976**. Current headquarters for our **35,000 m²** plant is in Dilovasi, Turkey. It is the largest waterslide manufacturing plant of the world.

Our vision is to be the leading company in the worldwide waterparks sector. To achieve that goal means being deemed **No. 1** by our partners, customers, colleagues and employees based on our proven excellence, expertise, credibility and quality.

Our mission: To contribute to the development of the aquatics industry by continuously leading improvements in the sector. We are determined to supply the highest-quality and most innovative products and services at convenient prices. We strive to progress beyond the expectations of our partners and customers and continuously increase our production and export volumes.

With **42** years of global experience in the composites sector, we have developed an unmatched expertise in both business and technology. Our successful completion of **3,000** projects - of different sizes and complexity and in **105** countries around the world - continues to build our wealth of experience.
